Louisville and Nashville-Trains mo-

the consequence of the consequen

SAN FRANCISCO, March 30.—Reports from oints on the Central Facific railroad between Halleck and Wells Stations, are to the effect that the track is under water for many soiles. The snow has been heavy in the shountains, and with the setting in of warm weather every ravine brings down torrents each afternoon. Many washouts have occurred and all trains are stopped. The road will not be open for several days. A large force of men are at work, but owing to the rush of water the labor has to be done mostly at night and early in the morning.
